

FOR IMMEDIATE RELEASE (DRAFT)

SIXTEEN NEW COMPANIES ENTER INTO PATENT LICENSE AGREEMENTS WITH CHRIMAR

Longview, Texas – May 11th, 2016 -- Chrimar Holding Company, LLC today announced that sixteen (16) technology companies and/or certain divisions within these companies have entered into non-exclusive licenses for certain equipment under certain Chrimar patents including certain Power over Ethernet (PoE) equipment designed for deployment within a BaseT Ethernet network, ten (10) of the new licensees include:

- Allied Telesis, Inc.
- Black Box Corporation
- Buffalo Inc.
- Edimax Technology Co. Limited
- Keyscan Inc.
- Korenix USA Corporation
- Moxa Inc. & Moxa Americas Inc.
- Pihong USA Corporation
- Transition Networks Inc.
- Tycon Systems Inc.

"We are very pleased to see that the trend of taking licenses for this critical technology is continuing to increase, with the number of licensees now totaling twenty-five (25)" said John F. Austermann III, President & CEO of Chrimar.

ABOUT CHRIMAR

Chrimar was the first company to employ DC current within a BaseT network in the early 1990s and has received a number of US patents for this very important technology. Chrimar continues to market its EtherLock™ family of products for asset control, management and security. The Chrimar portfolio includes US patents numbers 7,457,250, 8,155,012, 8,902,760, 8,942,107, 9,019,838 and 9,049,019.
